OYSTER

OYSTER 515

A BENCHMARK REDEFINED

The next generation 50 foot Oyster combining true bluewater capability, effortless shorthanded sailing and elevated onboard living.

The Oyster 515 is a defining evolution of Oyster's award-winning 50 foot bluewater cruiser. The latest collaboration between Humphreys Yacht Design and Oyster's in-house Design Studio, the 515 combines increased sailing capability with greater volume, evolved Oyster styling and a completely reimagined deck that transforms life onboard.

BUILT FOR MORE

The new Oyster 515 carries forward the qualities that made the Oyster 495 a benchmark in her class: reassuring safety, rewarding performance, effortless shorthanded sailing and exceptional liveaboard comfort. The result is unmistakably Oyster: a yacht designed with equal consideration for life under sail and at anchor, offering greater freedom to sail further, stay longer and experience more.

The defining evolution is aft. A beach club inspired deck brings together aft-facing seating, a sunken lounge area and a larger fold-down bathing platform to create a true living space at the water's edge. Designed for relaxing, entertaining, swimming and spending time together at anchor, it transforms the experience of life onboard.

Below deck, enlarged Seascape windows and hull ports bring more natural light and far-reaching views into her beautifully crafted interior. Oyster's signature Deck Saloon creates a bright, panoramic centre to life on board, while the generous saloon, well-equipped u-shaped galley, dedicated navigation station and three-cabin arrangement provide the space and practicality required for extended cruising. A private, full-beam aft owner's stateroom offers the comfort and seclusion expected from a much larger yacht.

FEATURES

- **Three-cabin configuration**
- **Superyacht-inspired bathing platform**
- **Beach club inspired aft deck**
- **Versatile cockpit and protected helm positions**
- **Increased sail area**
- **Full-beam owner's cabin with enlarged signature Seascape windows**
- **Easily accessible engineering features**
- **Increased lazarette stowage capacity**
- **Twin rudders**
- **Standard and shoal keel options**
- **Option for tender garage**
- **DNV GL certified hull**
